We Are Revolutionizing Scientific Instrument Repairs Through Technology

It's no longer acceptable for scientific progress to stall due to faulty equipment. Instrument Care System bridges the gap between instrument owners and skilled technicians through an intelligent, secure, and streamlined platform designed for the scientific community.

Our Mission

To empower labs, researchers, and organizations by providing a fast, reliable, and transparent system for repairing and maintaining scientific instruments.

Our Vision

To be the leading digital ecosystem for scientific instrument care, where every broken device finds the right expert, without delay.

HOW IT WORKS

1 Create Your Profile

Sign up as an Instrument Owner or a Technician. It only takes a minute to get started.

2 Find the Right Match

Owners can search, filter, and explore technician profiles based on expertise, location, and ratings.

3 Send a Service Request

Found a match? Send a Service request with details. The technician reviews and responds accordingly.

4 Chat Securely

Discuss the issue through our built-in real-time messaging system, no need for emails or third-party apps.

5 Complete the Job Together

Once the service is done, both parties confirm the job is completed, ensuring transparency and trust.

6 Rate and Review

After confirmation, owners leave a rating and review to help other users and reward great service.

Messages from Leading Stakeholders

Dr. S.R.S.N. Sudasinghe
Director General
National Science Foundation

To strengthen the manufacturing community, to support new partnerships and to help manufacturers with emerging technology...

Prof. Nilanthi de Silva
Vice-Chancellor
University of Kelaniya

We are very happy that the NSP has taken the initiative to establish a database with details of high-end scientific instruments scattered across Sri Lanka in universities and R&D institutions.

Emeritus Prof. Ranjith Senaratne
Former Vice-Chancellor, University of Ruhuna
Ex-Chair of the National Science Foundation

Sri Lanka has over 20 state-owned higher education institutions, a comparable number R&D institutions, and several public sector institutions, such as Sri Lanka Atomic Energy Board, Sri Lanka Standard Institute and Board of Investment, which collectively possess an immense instrument base including high-end equipment.

Dr. ...

Even though agencies have a Database of Higher Education long time ago...

Screenshot of the Technician Page on the Instrument Care website. The page features a header with navigation links (Home, About, Technician, Contact) and buttons for 'Log in' and 'Become a Technician'. The main section is titled 'Meet Our Technicians' and includes a 'Find a Technician' button. Below this, there is a grid of technician cards, each showing a profile picture, name, specialization, and a 'Service Request' button. A bottom section titled 'Need a Repair? Book a Technician in Minutes!' also features a 'Find a Technician' button. The footer contains the Instrument Care logo, contact information, and copyright details.

Login Page

The screenshot shows the Login Page of the National Science Foundation website. The page has a header with the NSF logo, navigation links (Home, About, Technician, Contact), and buttons for 'Log In' and 'Become a Technician'. The main content area features a 'Sign In' section on the left and a 'Join as a Technician' section on the right. The 'Sign In' section includes an 'Important' note, a login form with fields for 'username' and 'Password', a 'Forgot Your Password?' link, and a 'SIGN IN' button. The 'Join as a Technician' section includes a heading, a subheading, and an 'I'M TECHNICIAN' button. Red arrows point from text labels to specific elements: 'Enter Username' points to the username field, 'Enter Password' points to the password field, 'Go to forget password process' points to the 'Forgot Your Password?' link, 'Sign In Button (Click here to sign in)' points to the 'SIGN IN' button, and 'Go to Technician Registration Page' points to the 'I'M TECHNICIAN' button.

Sign In

Important
This system is integrated with the **National Instrument Database (NID)**. Use your existing **NID username** and **password** to sign in. No need to create a new account.

Please log in to access the Instrument Care System.
